About This Game

There is no exception to the rule - only balls with a heart can enter the Haven, and others, well... others have to move on. It was your turn to get your heart and be allowed in when the stamping machine stopped. Your only choice to join your kind is to prove your worth by finding enough hearts to refill and restart the machine. On your path, there are deadly falls to avoid, dangerous traps to evade, mind-bending puzzles to solve, and maze-like levels to traverse. But all is not grim, for there are shiny gems to collect, hidden puzzle pieces to find, and trapped friends to help. Perhaps there is another way to prove your courage?

The Little Ball That Could is a marble platformer with exploration and speed-run elements, inspired by Marble Madness, Manic Marble, Super Monkey Ball and Marble Blast. However, unlike its predecessors, TLBTC is not only about going as fast as you can - instead, you'll need to use your wits if you want to make it through its many non-linear levels and deadly traps.

FEATURES

- Roll through 120 large, non-linear levels spread across 5 beautiful low-poly worlds.
- Test your speed, precision and curiosity in over 9 hours of increasingly challenging gameplay.
- Take part in a minimalist story and unlock an alternative ending by saving trapped friends.
- Unlock beautiful ball skins using puzzle pieces, and try out fun powers that will let you play the game in radically different ways.

-

This game is great, but has some flaws. The art isnt as good as its predecessors and the game is kinda easy, even with hardboiled mode. What makes it cool is having an extra gun, shooting a lot of bullets and getting fast brainclap, but again, its way too easy.. Worth A look at if your into old school shooters.

. Made with Unity Personal Edition. Excellent waste of time while waiting for something better to download. Until the right and left buttons trade places for no #!*@^%#\$ reason. Want to shoot a powerup? Can't. It will trade places the ball that comes after it forever instead. Don't get this game. If you are obsessed with balls, shave someone's and play with those instead.

I beat the game anyway because COD:IW is 100GB.. Pros:

Quick to get in and out of for a burst of action and loading times are negligible.

Only jump back to the default environment was when firing a rocket the first time in a session, otherwise, the game has been running rock solid.

No MS for me, though YMMV (I'm not easily nauseated)

Dev was quick to incorporate dual-joysticks when asked

Cons:

Graphics are a bit spartan

While voice acting is of good technicality, it does come off a bit stilted

Bottom Line: Good fun for the price, but don't go in expecting Elite: Dangerous. Does what it says on the tin. Recommended.. I thought this was a season pass, not just dlc characters. so not worth it for the price.. Loads of fun being inside a room.

<https://www.youtube.com/playlist?list=PLNrGLO3r-8QUmIlQgFQbiRaPzbTPH49sS>. What the hech did I just witness?.....I am confused.....???. Got this game when it came out. It's one of my favorite RTS still to this day. Only thing is that people don't really want to play the multiplayer on game ranger or anything else. If you do want to play multiplayer then add me!!!!

This one is my favorite of the series. It has my requisite random map generator for endless gaming fun. You can set for simultaneous play or, like I prefer, classic turn based play ala Heroes of Might and Magic. Solid gameplay, huge variations of class types - this game never gets old to me.. This is the best \$2.99 I've ever spend since this morning at mcdonalds. I've found Jesus thanks to this game.. Love this and hope you guys stick together to keep creating. I love the aesthetic the mechanics and general tone of the game, I would definitely contribute to a patreon if y'all had one. Please for the love of the meduim keep up this unique creativity!. Not really an airline mangement. All you do is choose air routes and then try to match a right size plane to it. It looks fun but for an afternoon or at most a couple of days. But not a lasting game. So considering the price, it is ok.. when you need to "pack a punch" in multiplayer. short lil puzzle game, funky music, a good time. In the not-too-distant future -- Next Sunday A.D. --

There was a guy named Joel,
Not too different from you or me.
He worked at Gizmonic Institute,
Just another face in a red jumpsuit.
He did a good job cleaning up the place,
But his bosses didn't like him
So they shot him into space.

We'll send him cheesy movies,
The worst we can find (la-la-la).
He'll have to sit and watch them all,
And we'll monitor his mind (la-la-la).
Now keep in mind Joel can't control
Where the movies begin or end (la-la-la)
Because he used those special parts
To make his robot friends.

Robot Roll Call:

Cambot!
Gypsy!
Tom Servo!
Croooow!

If you're wondering how he eats and breathes
and other science facts (la la la),
Then repeat to yourself, "It's just a show,
I should really just relax
For Mystery Science Theater 3000!"

. Its a fun game i played it a lot, but the game wont save the progress. Not recommended to buy at this state at all right now. The game stoped saving the progress Late in the game. (10.3.19)
